

Join us for an evening at the Janney Technical Center
on Monday, October 12, 2026, from 4–9 p.m.

WJE

Wiss, Janney, Elstner Associates (WJE) is an interdisciplinary firm of engineers, architects, and materials scientists committed to helping clients solve, repair, and avoid problems in the built world. Founded on the principle that developing better solutions requires a better understanding of the problem, WJE combines state-of-the-art laboratory and testing facilities, nationwide offices, and knowledge sharing systems to provide practical, innovative, and technically sound solutions in all areas of existing and new construction.

Join us for an evening at the Janney Technical Center, WJE's 70,000-square-foot state-of-the-art testing and applied research facility. This event will include roundtrip transportation to WJE from the hotel, drinks and heavy hors d'oeuvres, and a technical tour of our chemistry, petrography, metallurgy, concrete and mortar, corrosion, and structural testing laboratories as well as environmental exposure chambers. Please wear closed-toed shoes for the tour—safety glasses will be provided.

Click here to register for this complimentary event!

Registration closes October 2 or when registration reaches capacity.
We encourage early registration, as availability may be limited.

Find out more about WJE at www.wje.com or our labs at www.wje.com/jtc
